GCBS Band Returns From Tour Of South

Ninety-five students of the Granite City high school band and nine adults of the Band Parents Association returned home Sunday noon from a five-day tour of the South. The group had made its headquarters at Mobile, Ala., and enjoyed a side trip to Pensacola, Fla., for a visit to the Naval Base and beach swimming party.

Benches giving a concert at Vigor high school in Mobile, the band toured Daughlin Island and an old fort in Mobile.

Accompanying the students were Mrs. Frank Toth, Mrs. J. E. Heffery, Mrs. James Harsh, Mrs. Peter Senak, Mrs. J. A. Grant, Mr. and Mrs. A. L. Van and Band Director and Mrs. Louis Meek. They were joined by L. Bruce Meek, the Meek son and a former band student in Mobile. He is stationed at Keesler Air Force Base, Biloxi, Miss.

The trip marked a year's intense study for the students and student and civic affairs. Sophomores and juniors are looking forward to the annual tour next year while the seniors are preparing for commencement day next month.

Waves Lap At Homes

Traffic on the flooded streets was creating waves, pushing water into homes. The sewer lines were completely filled, but most of the water had run off by early morning," Supt. Warfield said.

Street crews raised a manhole at 25th street and Madison avenue to permit the water to run-off Thursday night. New 12-lines were installed there but were unable to cope with the accumulated water.

Motorists who were able to keep their cars running had to take circuitous routes to reach their destinations. One "Big State Transit Co." bus driver took a shot out over the curb at 26th street and the Delmar avenue while making a left turn off 26th street in the high water. The bus was stranded in mud between the sidewalk and curb at the corner and was stranded for several hours until pulled out by a tow truck.

The city was notified of basement flooding at the Washington theatre and at homes in the 2200 block of Lincoln avenue and along Center street. There also were reports from scattered sewer systems and the Quad-Cities.

When the 13:15 stations serving the Nemoval sanitary sewer system were checked Thursday night, the red warning lights were burning at every one. "All sewerage do was keep them going," Supt. Warfield said.

Water Safety Week' Program Thursday

A two-hour program on water safety and resuscitation, plus films on small boat handling, will be given Thursday at the YMCA.

The 7:30 p.m. program is being presented in conjunction with Water Safety Week. Open to the public, it is designed especially for persons interested in water sports.

Safety rules, the violation of which is said to be a leading contributor in cases of accidental death by drowning, will be outlined during the program.

Drowning is the fourth largest cause of accidental death in the country, having claimed some 7000 victims in 1962.

But programs similar to the one here Thursday night are considered at least partially responsible for the fact that no Quad City residents were among drowning victims last summer.

Swimmers, water skiers, boaters and skin and scuba divers—in fact, all persons who look to water as a source of summer recreation—are being invited to attend the safety program Thursday evening.

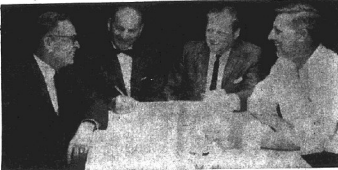

The YMCA, park district, scout units and Red Cross also offer courses for beginning and advanced swimmers.

A display centered around the theme of Water Safety Week is currently featured in a window of the Illinois Power Co. offices in Granite City.

Kofahl Saves Game For Papp; GCHS Opposes Alton Tuesday In Regional

Collinsville, Granite City's baseball Warriors gained a measure of revenge and a berth in the Roxana regional tournament by turning back the Kahoks 4-3 here Saturday afternoon in the district title contest at Wilson Park.

The Warriors made six hits, one of them a two-run homer by Terry French, and some clutch relief pitching by Terry Kofahl goa long way as they earned the opportunity to meet Alton tomorrow afternoon in a first-round game at the Roxana regional.

The Redbirds, beaten twice this spring by Granite City, won the title at the Wood River district Saturday with a 6-1 decision over Wood River. Alton and GC are scheduled at the Roxana high school diamond at 4 p.m. tomorrow.

The winner will meet the survivor of today's Southwestern Cahokia contest on Wednesday at 4 p.m. in the regional title game. The regional champion will go on to the Staunton sectional May 27.

Southwestern won the Jerseyville district with an eight-inning 4-3 decision over the home club, while Cahokia advanced to regional play by outlasting Dupu at Cahokia Saturday 4-2.

Postponed three days because of rain and wet grounds, the GC-Kahok game finally got underway at 4:30 p.m. Saturday.

The Warriors broke a scoreless tie in the second when Bob Ketter led off with a triple against losing pitcher Charlie Shackleton and scored on Bob Karandjeff's single.

A fielder's choice and walk put Karandjeff at second, from where he scored with a headlong slide on starting pitcher Charlie Papp's ace.

Two-Run Homer
What stood up as the decisive run for Coach Joe Fedora's club came across in the third when, with Glen Hoffman on base, French belted a long home run to left-center to make the score 4-1.

Bob Lorenz's triple and a single by Carl Yates had plated a Collinsville run in the second. The Kahoks got one more in the fifth on Jim Mueller's double and a single by Lorenz, and then came within a run of getting even in the sixth.

Dale Redmond singled and took second on a passed ball. With two out, Dave Russell singled Redmond home and then stole second. A passed ball moved him to third and Fedora brought in

left-handed Kofahl, who had pitched a no-hit game against Roxana Tuesday to get the Warriors into the finals.

Kofahl got the third out in the sixth on a fly ball and retired the side with a pair of strikeouts and a fly ball in the seventh to preserve Papp's victory.

Fedora said either Papp or Kofahl ("They've both been doing a whole of a job the last two weeks") will be on the mound against Alton tomorrow. Bob Jones, beaten once by GCHS during the regular season, is the likely starter for the Redbirds. Granite City 6-2 0 0 0 0-4 6-1 Collinsville 1 0 0 1 1 0-3 7-2

New Trier (Winnetka) scored nine team points Friday and Saturday to win the Illinois state high school tennis championship at Champaign.

Belle's Frank Conner was upended in the singles finals by Bob Maramba of Glenbard East. The Maroons, district champions, were fourth in the final team standings.

Best showing for Granite was made by district doubles runners-up Wayne Hancock and Rusty Toharen, who defeated Dennis Fields and Dennis Clar of Chicago Math 6-2, 6-2, in their first match, and then took the No. 5 seeded doubles pair, Dave Andrich and Jim Johnson of Rock Island, three sets in the quarterfinals before losing 6-3, 4-6, 6-4.

Mercer Funeral Home took over second place in Blue division standings of the Inter-City Baseball league here yesterday afternoon, defeating defending cup champion Pocahontas with a tie-breaking run in the bottom of the ninth, 7-6.

Relief pitcher and winner Dick Portell tripled against Stan Fincher, who had singled, with the winning run after two were out in the ninth. Mercer ran its record to 3-1 in handing the Braves their first loss in four games.

The Granite City team picked up single matters in the eighth, four and fifth innings off Braves' Starter Dave Rommershorne by Charles Johannmeier in the third. Don Stout, who relieved Rommershorne in the ninth, was the losing pitcher.

Park Takes 2 Games From Blue Circle

'Sold sticking. In one game and tight pitching in another game, the Granite City Park District class AA softball club got off the mark in fine style Saturday night at Fairgrounds Park, St. Louis, where GC swept a doubleheader from Blue Circle Lounge, 9-2 and 1-0.

The Park scored six runs in the first inning of the first game, with doubles by Jerry Farmlay and Ben Bain the big drives, and then added two more in the second on catcher Leon Chappell's two-run single.

Norm Grote, who hurled the first five innings for the park, was the winner. Carroll Glickson mopped up with two shutout innings. Ralph Baker was the loser.

Howie Lamb tossed a one-hitter at Blue Circle in the second game, and the park team could manage only four hits of loser Bob Allen.

Two of them, singles by Babe Champion and Bain, were coupled with sacrifice flies by Bob Stuegemier and John Harrison to score the game's only run in the second.

Lamb struck out eight in fashioning his near-perfect game. The park continues its exhibition schedule here Wednesday night in a double-header at Wilson Park with the Alton Chiefs. The first game will begin at 7:30.

General Assembly Agrees On State Public Aid Ceilings

(Special from Springfield)

The deadline of eight weeks on the issue of ceilings for public aid payments in Illinois was finally broken by the General Assembly Thursday after Democrats and Republicans held a series of conferences in which specific limits were set. A statement issued by House Republicans pointed out that an agreement with Democrats embodied the ceiling figures contained in the May 9 Conference committee report with some minor exceptions.

The ceilings for rental allowances were set at \$75 monthly, separate from monthly allowances for food and maintenance. However, an exception in the rental allowance was made up to \$90 monthly with the approval of the executive secretary of the Illinois Public Aid Commission and in those cases above \$90 which are now paid will continue to be paid until Sept. 1.

After Sept. 1, rental payments exceeding \$90 monthly will not be allowed with approval of two-thirds of the vote of a legislative advisory committee on public aid. Monthly grants range from \$120 to \$200, but other allowances of \$10 a month for families with nine and ten children will be made.

Ceilings Set For May
Ceilings are to be effective as soon as is administratively possible for May, for June and then on July 1, the first day of the new biennium. The public aid ceiling question has been a bone of contention to other legislative business, where the calendar of daily business is now the longest it has been at any time in the current session.

A new code department will be established when Gov. Otto Kerner signs a bill given final passage by the House. The proposal establishes a Department of Children and Family Services and carries an appropriation of \$4,500,000. It will actually separate the facilities for children and family services now in the Department of Mental Health, from that department. The director of the new department will receive an annual salary of \$18,000.

A bill which would make it a misdemeanor to use noise-makers at sporting events was passed in the House when it collected only 65 votes for passage. It needed 80 to pass. This is the bill introduced by Rep. C. A. Walker (R-Park Forest), who demonstrated on the floor of the House, the devices he would have outlawed.

Siren To Bull Horn
While legislators held their ears or fled from the floor, he blew sirens, jangled a cow bell, blasted an air horn — the type you hear on a diesel train — and used a bull horn. The latter is the voice-amplifying horn frequently used by police.

The House did pass and send to the Senate a bill which would make physicians, teachers, ministers, editorial and mechanical employees of newspapers, optometrists, pharmacists, tax and bus drivers, embalmers, undertakers and funeral directors and veterinarians eligible for jury duty. Presently, all are now exempt.

The House gave final passage to a Senate approved bill which authorizes the state to help families bear the expense of relatives being treated for mental illness in private institutions. The proposal, which now goes to the Governor for such treatments would have to be approved by

the Department of Mental Health.

The Senate's license and Motor Vehicle Committee, by a vote of seven to three, recommended for passage, a bill to ban professional boxing sponsored by Sen. Paul Simon (D-Troy). The counterpart of Simon's bill in the House, sponsored there by Rep. Anthony Scarnano (D-Park Forest) is at passage stage.

More State Aid For Schools
Meantime, the House Education Committee has recommended for passage a bill to increase state aid for each pupil for each school year to \$297. Presently, that state aid is \$252. The measure also provides for the school district, in order to qualify must extend its tax rate to at least 60 cents for each \$100 assessed valuation, if it maintains grades one through eight, or grades nine through 12.

If the district is a community unit school district, its tax rate must be at least 60 cents for each \$100 valuation. These are not increases in the maximum rate, but only the minimum rate must be assessed by a district to get the state aid.

The House Education Committee also recommended for passage, a bill which concerns organization of community unit districts. It provides that a petition circulated to establish such a district must set forth the maximum tax levy for education and building purposes. Moreover, it recedes the combined maximum rates for education purposes.

Birth Control Information
Another House Committee—Public Aid—approved House and Senate bills on limitation of birth control information and the prohibition of distribution of contraceptive to any except married women living with their husbands who are public aid recipients.

These are the bills introduced in the Senate by Sen. Morgan Finley (D-Chicago), which was opposed by the former Illinois Public Aid Commission chairman, Arnold Marenton, and in the House by Rep. Ralph T. Smith (R-Alton).

Smith's bill, which originally prohibited distribution of all such information and contraceptives by the TPAC, but both have been amended to provide the same thing now: That only married women living with their husbands may get such information or such devices.

A merit system for the Cook county sheriff's force was approved in the House municipalities committee. One of the witnesses was Sheriff Richard B. Ogilvie who told the committee such a system was necessary to help in the fight against crime. This is the bill which was taken out of the House Executive Committee and assigned to the Municipalities committee. However, now that it is out of the latter committee, its prospects for passage are considered good.

Advance School Agenda Release Planned In GC

Advance information on major items of business scheduled for Granite City school board consideration is to be made available to the public, the school district has decided.

Purposes of agenda articles on the day before board meetings will be to enable citizens to attend when there is to be action on topics of interest to them.

The initial agenda announcement for the May 28 board meeting has not yet been issued, but already there have been indications of what it will include.

Specific references to May 28 action were made at the last board meeting in regard to the district's bus transportation contract; salaries of junior high school coaches and Administrative Assistant Earl Lee; possible establishment of golf as a regular sport at Granite City high school; assignments for handling of negotiations on wage agreement; and a request for reinstatement by a teacher on disability leave.

League of Women Voters
Granite City Provisional League has requested advance knowledge of meeting dates on the school district budget, policies, curriculum, students, personnel and anything else that would be of interest to us as citizens.

The Area Council of PTAs also has indicated an interest in sending representatives to board meetings.

Rather than attempting to send agenda information to what might prove to be a long list of organizations, the district hopes to accomplish the same thing with Monday news announcements in the weeks board meetings are to take place.

Another innovation this year is the limitation of business transacted by the board to the agenda, except for matters of an emergency nature. The board meets at 7:30 p.m. on the second and fourth Tuesday of each month.

Autos Collide
Involved in a collision at Marshall and Wilson avenues Thursday afternoon were autos driven by Robert Lindsay, 28, of 684 Margaret avenue, who was going east on Wilson avenue, and L. A. Smith, 29, of Wood River, who was traveling south on Marshall avenue. Police said no one was hurt.

St. Clair Automation Delaying Taxes Here

Automation in St. Clair county is delaying certification of property valuations of Madison county areas within the East Side Levee & Sanitary District, Miss. Bualala Hoiz, county clerk, complained today.

It is causing a delay in the processing, mailing and collection of taxes in the Quad-City area, Miss. Hoiz said. She is waiting for the Levee Board to provide the valuation of property in St. Clair county so that a district tax rate can be computed.

A system of automation is being established in St. Clair county by the Compustat firm of St. Louis. Miss Hoiz said she is waiting for the firm to expedite the portion of the work effecting Madison county.

"We can figure out by hand faster than they can get it into machines," she quipped.

Does Advertising Raise the Cost of Living, Or...

By GORDON J. HOENER
Public Relations Officer
Granite City Trust and Savings Bank

People frequently ask me about the value of advertising and whether or not it's a necessary function in our economy. My answer to the latter query is always an unequivocal, "Yes, advertising is necessary."

As for advertising's value, let's analyze it.

Some of us tend to think of advertising as the interference to our favorite radio and television programs or something that cluttered up our newspaper. But if it weren't for those advertisements, we wouldn't have those programs to listen to or that paper to read.

Or perhaps some of us are thinking about the new washing machine the wife has been wanting since she saw it advertised. Maybe you feel advertising is what makes people want things they don't need. Others may feel advertising makes goods more expensive.

The truth is exactly the reverse. Advertising substantially lowers the cost of living. Let me give you an example. Say you purchased a radio this year. It's a small one that cost \$25.00. Before you walked into that store you had seen ads in this newspaper for radios of about the same size and quality, so you knew that a price of \$30.00 would be out of line.

But if it hadn't been for the ads, you would have had to go to several stores to assure yourself of the right price level. That would probably have taken you two hours.

Let's value your time at \$2.00 an hour. In that two hours you did find the radio that sold for \$25.00. Now add your time... the radio cost you \$28.00, with no advertising help.

NOTE: For financial assistance in banking service, you are cordially invited to consult Mr. Hoener or any of the other officers of Granite City Trust and Savings Bank 1909 Edison Avenue.

Hours: 9:00 to 2:00—Monday thru Friday 9:00 to 1:00 and 4:00 to 7:00 Telephone—Triangle 6-1212

But go further. Without advertising, the merchant can't get you to walk into his store so easily, so he must hire a sales force to go out to your house, to call you up or to find you somehow. And these salesmen must know more about the product if there is no advertising, because they must educate you... as the ads have.

Obviously, a sales force of this type, equipped with cars, sales tools and education, would cost the merchant plenty. This cost would have to be taken up somehow... so it's added to the product. It's cheaper to do the preliminary selling by advertising.

Further, the ad selects the people who are ready to buy... whereas the salesmen would have to knock on many doors before they found the man who needed a radio.

It's an old cliché to harp on our standard of living. But the fact is that advertising puts products and services on a sales basis as opposed to a custom tailored business... so the unit price drops fantastically. You've heard the saying that the first car off the assembly line, if they made it, they would carry a price tag of \$16,000. But advertising makes them buy in bulk, the same tools to get the price per car down to where the consumers can afford to buy them.

Advertising annually saves consumers billions of dollars.
